PIANO PRICES.

If a dealer asks you \$400 for a piano, and after much negotiation consents to accept \$250, don't think for a moment that you have an opportunity to secure a \$400 piano for \$250; but make note of the fact that he tried to get \$400 for a \$250 piano. Also remember that you could get it from me at \$250 and even less without any preliminary talk, and thus save your time. Behr Bros', Chickering and Mason & Hamlin pianos at \$400 up. Cheaper grades at \$200 to \$275. High grade guitars, mandolins, etc., at \$10 up. Cheaper goods at \$3.50 up.

LOCAL NEWS BRIEFS

Small Paragraphs of General Local Interest.

News of Phoenix and Tributary Region. The Doings of People and Other Matters.

Mr. G. M. Sargent returned to Prescott last night.

Albert Von Schrititz of Jerome was yesterday commissioned notary public.

About 5 o'clock yesterday evening a trolley wire broke on the street car line west of the capitol grounds.

The Phoenix Plumbing company is engaged in putting up two cyanide tanks for early shipment. It had been supposed that galvanized iron would not withstand the attack of cyanide, but it has been made to do so by a special covering.

This Gamewell fire alarm system ought to be either repaired or thrown away. It is demoralizing the department by turning in false alarms of its own accord. It sent in one about 2 o'clock yesterday from near the M. & P. depot and another last night from the western part of town.

Word reached Phoenix yesterday of the recent marriage at San Diego of Edwin S. Gill and Mrs. Della V. Pengra. Mrs. Pengra is quite well and favorably known in Phoenix, having come here from Portland, Ore., a year ago last winter with an invalid daughter. Mr. Gill went to San Diego a week ago.

E. E. Ellinwood must have endeared himself to the democratic delegates yesterday afternoon. In the midst of the sweltering heat 130 fans, all he could find in town, were brought in and the air was filled with them. Later in the day he caused a lot of handsome silk badges to be distributed among the delegates. If in this way he has impressed upon them that he would be as active in congress as he was for their comfort, an Ellinwood delegation may be elected today.

A document was filed in the county recorder's office yesterday which will rather painfully surprise the heirs of the estate of the late Michael Wormser, as it reduces the value of his property by \$50,000. The instrument was a mortgage of the date of April 1, 1897, executed to the Bank of Arizona at Prescott. It is secured by a large area of land owned by Wormser on the south side of the river. Why the mortgage was held so long is not known and none but Wormser's most intimate friends were aware of its existence.

Secretary C. H. Akers, who returned from Prescott on Wednesday night, brought with him a relic of the wreck by the explosion of a locomotive there the other day. It is a portion of the sand-box, which after having been thrown a quarter of a mile, nearly cut a telegraph pole in two. One section of the locomotive weighing eight tons was thrown about the same distance. The air pump, which weighed 500 pounds, was thrown in front of the postoffice at a time when the streets were usually crowded with people. There is not the slightest piece about the locomotive that can ever be used again, the destruction was so complete.

Mr. Blythe of the weather bureau here will be succeeded by Mr. William G. Burns, who has been sent out from the central office at Washington. Mr. Burns has been with the bureau a long time so that he is not only a valuable official, but a very pleasant gentleman. He will be assisted by Mr. A. Ashenberger, formerly connected with the local office, but since located at Portland, Ore. Mr. Blythe will go to Flagstaff for a few days and will then proceed to his new post at Vicksburg, Miss. The people of Phoenix will regret his departure. He has not only made the bureau here valuable, but he has proved himself to be a good citizen.

There was a decided falling off in the number of excursionists who left for the coast last night by the S. F. P. & P. and the M. & P. this morning. Many of those who went were men going to meet their families and escort them home. Some of the S. F. P. & P. passengers were F. W. Thode, L. Castle, W. A. Davis and M. F. Davis, San Diego; E. F. Kellner, Jr. and Mrs. C. M. Daves, Los Angeles; J. DeMund and W. DeMund, Long Beach. Among the M. & P. excursionists were: William Davis, L. D. Huff, Mildred McDaniels, Neils Peterson and wife, George Decker, Mrs. W. T. Cummings, Mr. and Mrs. J. J. Gardner, Mrs. Mills, William M. Myers, H. W. Wilson, Mr. and Mrs. Wilson.

Henry Moeller yesterday made complaint in police court against Odette Lambert and another woman named Bernard, charging them with keeping a disorderly house. The women were until lately prostitutes and perhaps are yet, though they lately pretended to have a spasm of reform. They didn't want to become righteous with a suddenness which would give them a jar, so they determined to ascend by degrees. The next upward step toward a higher life they believed would be the running of a saloon. They accordingly opened one on Tuesday in a building on South Fifth street, erected by Anton Gould just before the block

CUBANS WILL DECIDE IT.

Choice of Government Left to Citizens of the Island.

Washington, Aug. 18.—There is no doubt whatever that Cuba and Porto Rico will be under the complete domination of the labors of the peace commission and that Cuba by that time will be fully in possession of the United States military forces. The United States is pledged to give Cuba a stable government and at the same time is pledged against its acquisition. This will make it necessary for the United States to at once establish a guardianship over the island and it is the purpose of the president to appoint a military governor and administer its affairs under military rule until a civil government can be established. General Lee is expected to be selected for this important office.

As soon as it shall be deemed practicable the people of Cuba will be called upon to choose representatives to a convention to determine upon a form of government for the island. This convention will be left entirely free to pass upon the matter and its decision will be maintained by the United States. It is likely that a convention will be assembled within a year and in the meantime full opportunity for discussion among the people will be encouraged and promoted. Among the better classes in Cuba there is strong feeling for annexation to the United States, and when the time for choosing delegates to a convention arrives it is very probable this will be the prevalent feeling.

SUCCEEDS THE MAINE.

The Cruiser New York Will Enter Havana Harbor.

New York, Aug. 18.—A special to the Herald from Washington says: Rear Admiral Sampson's flagship, the armored cruiser New York, will be the first American warship to enter the harbor of Havana since the war was declared. She will carry with her the members of the military commission appointed by the president to proceed to Havana to arrange with a similar commission to be appointed by Spain the details of the evacuation of Spanish troops.

"I CAN'T SEE"

As well as I should," is a complaint you hear not only from older people, but from the young as well. Age is no criterion for the wearing of glasses. Many are born with greater defects than come with age. Young people inherit and cultivate defects by strain and abuse. Young, old or middle aged, if you are not getting the service from your eyes that you think you should, you ought certainly to ascertain the nature of your trouble. I can tell you.
